

[Toad MsqL License Crack](#)

The screenshot shows the Toad Data Modeler interface. The main window displays a logical model with several tables: Employee, Department, Taxm, Internal_employee, External_employee, and Building. The Employee table is highlighted, and an 'Inheritance Properties' dialog box is open over it. The dialog box shows the 'Physical Implementation' section with the following options:

- Single Table - Parent Inherits All Children
Discriminator: ID - Employee
- N - 1 Tables - Each Child Inherits the Parent
- N Tables - Physical Model Matches Logical

The Message Explorer at the bottom shows a list of messages:

Id	Date	Time	Message
2	6/17/2011	3:44:50 PM	---
